

EMERGENCY OPERATIONS CENTER COURSE

An eight-hour course that is designed to help local government develop an Emergency Operations Center (EOC) program that focuses on all-hazard preparedness, response, recovery and mitigation.

This course is designed to meet the unique needs of local, state and federal government planners, emergency managers, public health, first responders and key public officials and others with an interest in increasing their knowledge of emergency management procedures and their local emergency management system and plan.

See back of announcement for the course agenda.

There is a registration fee of \$10.00. Make checks payable to "Richland County LEPC". A minimum of ten registrations is required by October 13, 2006.

Registration Deadline: Noon, Friday, October 13, 2006
